The facilities named in the listing above are located in Darke County. Each was issued a Review Compliance Certificate (RCC) or a Permit to Operate (PTO) by the Ohio Department of Agriculture (ODA) in 2004 to operate for a period of five years, after which time the facility was required to apply for a PTO renewal.

Public notice is hereby given that these facilities have received final Permits to Operate from the Ohio Department of Agriculture and have met the requirements set forth in OAC 901:10-2. The actual location of each facility follows the facility's name.

The PTO is for the entire farm and regulates operations with plans for manure management, insect and rodent control, mortality management and emergency response. The permit is valid for a five-year period, at which time the owner(s) would be required to renew the operating permit.

Any of the permits for the facilities in the listing can be appealed within 30 days to the Environmental Review Appeals Commission (ERAC), 309 South Fourth Street, Room 222, Columbus, Ohio 43215. The appeal period ends at 5:00 p.m. on Dec. 28, 2009. A copy of the appeal must be served on the Director of Agriculture within three days after filing the appeal with ERAC.
