Waste to Energy Workshop: Advances and Opportunities in Ohio's Livestock and Food Processing Industries

Arden Shisler Conference Center
The Ohio State University, Wooster Campus
1680 Madison Avenue, Wooster, OH 44691
Tuesday, April 7, 2009
8:00 a.m. – 2:30 p.m.

Mark your calendars to attend a workshop focused on the advances and opportunities to convert waste to energy. Participants will learn from experts on a variety of topics including technologies and experiences in anaerobic digestion of livestock manure and food processing wastes, interconnection with local utilities, biogas clean-up and direct use, energy recovery from landfill gas, and state and federal financial incentives. Organizers include the Ohio Department of Development's Ohio Energy Office, Ohio Department of Agriculture, Ohio Agricultural Research and Development Center, Public Utilities Commission of Ohio, Ohio Farm Bureau Federation, and the Midwest CHP Application Center.

Registration is required and includes lunch. Registration is free if done by March 31st, 2009. After March 31st, the late registration rate is \$25. Limited exhibit space is also available. For more information and to register, please contact Sam Rinaldi via email at samr@uic.edu or phone at (312) 996-2554. More details and online registration will be posted next week at www.CHPCenterMW.org.
