The facilities named in the listing above are all located in Mercer County. Each was issued either a Review Compliance Certificate (RCC) or Permit to Operate (PTO) by the department in 2003 to operate for a period of five years, after which time the facility was required to apply for a new PTO. Public notice is hereby given that these facilities received Permits to Operate from the Ohio Department of Agriculture on July 1, 2009, and have met the requirements set forth in OAC 901:10-2. The farm location, applicant(s) and animal design capacity of each facility are also listed above.

The Permit to Operate is for the entire farm and regulates operations with plans for manure management, insect and rodent control, mortality management and emergency response. The permit is valid for a five-year period, at which time the owner(s) would be required to renew the operating permit.

Any of the permits for the facilities in the listing can be appealed within 30 days of the legal notice to the Environmental Review Appeals Commission (ERAC), 309 South Fourth Street, Room 222, Columbus, Ohio 43215. The appeal period ends at 5:00 p.m. on August 1, 2009. A copy of the appeal must be served on the Director of Agriculture within three days after filing the appeal with ERAC.
