Stark County Permit to Operate Renewals

The Concentrated Animal Feeding Facilities listed in the following table are all located in Stark County. Each was issued either a Review Compliance Certificate or Permit to Operate (PTO) by the Ohio Department of Agriculture in 2003 to operate for a period of five years after which time the facility was required to apply for a new PTO. These facilities have applied for renewed operating permits and have met the requirements set forth in OAC 901:10-2

A Permit to Operate is drafted to regulate operations with plans for manure management, insect and rodent control, mortality management and emergency response. This permit would also be valid for a five-year period, at which time the owner would be required to renew the operating permit.

A manure management plan is required as part of the PTO to demonstrate effective and responsible use of the nutrients contained in the manure. An Insect and Rodent Control plan is required to minimize the presence and negative effects of insects and rodents. A Mortality Management Plan is required for the disposal of dead livestock. Approved methods for disposal are burying, burning, rendering or composting. An Emergency Response Plan is required to ensure accidents or emergencies are handled quickly and efficiently to maintain the safety of the environment, wildlife, and water supplies.

Finally, an Operating Record is contained in the draft PTO that includes all forms and information that must be maintained by the facility to show compliance with ODA's rules. These records, which are inspected by the ODA a minimum of twice annually, include inspection of the manure storage structures, manure characterization, land applications, insect and rodent control, distribution and utilization of manure, and mortality management.

Facility Name	Owner/ Operator	Facility Address	Township	Watershed	Livestock	Stocking Capacity
Alberta Beach Farm, LLC.	Alberta Beach Farm, LLC	8276 Alberta Beach Farm Road NE, Louisville, Ohio 44641	Marlboro	Middle Branch of the Nimishillen	Broilers	170,000
