

FOR IMMEDIATE RELEASE  
September 23, 2011

**SUGAR VALLEY MEATS LLC**  
**2149 DUTCH VALLEY DRIVE N.W.**  
**SUGARCREEK, OHIO 44681**

Sugarcreek, OH (Sept. 23, 2011) - Sugar Valley Meats LLC of Sugarcreek, Ohio has issued a voluntary recall due to possible *Listeria monocytogenes* contamination involving approximately 4,110 lbs. of ready-to-eat product. The products are Wieners, Beef Wieners, Trail Brand Bologna, Summer Sausage, Smoked Snack Sticks, Garlic Knockies, Krepples, Cooked Beef, Cooked Pork, Smoked Boneless Ham, Smoked Turkey Breast, and Smoked Beef Strips. Each product's package label bears the establishment number (Est. 165) inside the Ohio Department of Agriculture inspection legend. The products involved in this recall were offered for sale through Sugar Valley's retail store from August 17 thru September 22.

There have been no consumer complaints or reports of illness at this time. The problem was discovered as a result of routine sampling by the Ohio Department of Agriculture.

Consumption of food contaminated with *Listeria monocytogenes* can cause listeriosis, an uncommon but potentially fatal disease in young children, frail or elderly people, and others with weakened immune systems. Although healthy people rarely contract listeriosis, if you become ill, you are advised to seek attention from a physician.

We at Sugar Valley Meats value our customers and strive to produce a safe and wholesome product. We apologize for any inconvenience this may have caused.

Customers are encouraged to return any products in question to Sugar Valley Meats. Feel free to contact Reuben Erb, owner at (330) 852-4423 with any concerns or questions.
