 RE: Recall Announcement (ODA/ODH) 2015-46

**Amy's Kitchen Recalls Various Products Because of Possible Health Risk**

Amy's Kitchen, Inc. is voluntarily recalling approximately 73,897 cases of select code dates and manufacturing codes of the products identified on Attachment A. This recall is based on a recall notice from one of Amy's organic spinach suppliers that Amy's may have received organic spinach with the possible presence of *Listeria monocytogenes*, an organism that can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, Listeria infection can cause miscarriages and stillbirths among pregnant women.

Amy's Kitchen is not aware of any illness complaints to date related to the recalled products identified in Attachment A. Out of an abundance of caution, however, Amy's Kitchen is recalling these products based on the recall notice we received from our supplier.

The recalled products were distributed to stores nationwide in the United States and in Canada. The recalled products are identified in Attachment A, and no other products or varieties are included in this recall.

Amy's Kitchen has notified its distributors and retailers and is taking this voluntary action as a precautionary measure. This recall is being conducted with the knowledge of the Food and Drug Administration.

Consumers who have any of the products identified in the chart above are urged to dispose them or return them to the store where they were purchased for an exchange or full refund. Consumers may also call Amy's at (707) 781-7535 [Monday through Friday between 9 a.m. and 5 p.m. (Pacific)].
