Listeria monocytogenes, is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, listeria infection can cause miscarriages and stillbirths among pregnant women.

The recalled items were distributed in the following states via retail stores: IN, LA, MA, MD, MI, NJ, NY, OH, PA, VA, WV & SC, between 6/4/2015 and 5/31/2016.

Currently, there are two possible illnesses being investigated in connection with this recall. The potential for contamination was noted after we received notification from our sunflower kernel supplier SunOpta pertaining to positive *Listeria monocytogenes* results.

Consumers who have purchased any of these items are urged to destroy the product. If customers have further distributed any of these items, please immediately contact your accounts, advise them of the recall situation, and have them return their outstanding recalled stocks to you and maintain and share your record of the destruction of these items. Consumers with questions may contact the company at 1-716- 389-0264, Monday – Friday, 8am - 5pm, ET.
