RE: Recall Announcement (ODA/ODH) 2016-60a6

Hickory Harvest Expands Recall of Certain Sunflower Kernel Products Because of Possible *Listeria Monocytogenes*

Akron, OH – Hickory Harvest Foods, under advice from its sunflower kernel supplier, SunOpta, is expanding their recall of a limited number of products that have the potential to be contaminated with *Listeria monocytogenes*, an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, listeria infection can cause miscarriages and stillbirths among pregnant women. These recalled items are in addition to the items recalled on May 4, 2016.

The additional products were packaged at, or distributed from Hickory Harvest between the dates of April 20, 2016 and May 18, 2016. Shipments were to the following states: AR, AZ, CA, CT, FL, IL, IN, KY, LA, MA, MD, MI, MO, NC, NM, NY, OH, OK, OR, PA, TX, and VA. No illnesses have been reported to date, but in an abundance of caution Hickory Harvest is recalling all affected products.

Recalled retail items were sold in packaged bags and deli tubs and are marked with Best By Dates located on the front or back of the packages. Listed below are details regarding the additional recalled items:
